

SECTION 01730

REFERENCE STANDARDS

1.01 SUMMARY:

- A Any material or procedure specified by reference number, symbol, or title of a standard such as a commercial standard, federal specification, trade association standard, technical society standard, or other similar standard document shall comply with the requirement in the latest revision thereof and any amendment or supplement thereto, except as may be limited as to type, class or grade, or modified in such reference. Reference documents shall be considered an integral part of this Project Manual as if included in their entirety.
- B. The Contractor shall comply with requirements of association, trade, or Federal Standards, except when more stringent requirements are specified or are required by applicable codes.
- C Should a specified reference standard conflict with the Construction Documents, the Contractor shall request a clarification from the Architect before proceeding with the work, by using the RFI Form per Section 01200- Construction Administration.
